

# Question/Answer Relationships

## In the Text...

### Right There

The answer is in the text. The words used in the question and the words used for the answer can usually be found in the same sentences.

### Think and Search

The answer is in the text, but the words used in the question and those used for the answer are not in the same sentence. You need to think about different parts of the text and how ideas can be put together before you can answer the question.

## In Your Head...

### Author and You

The answer is not in the text. You need to think about what you know, what the author says, and how they fit together.

### On Your Own

The text got you thinking, but the answer is inside your head. The author can't help you much. So think about it, and use what you know already about the question.
